## Module 10

### *Ground Disturbance*

Planning to safely accomplish a ground disturbance helps ensure control measures are implemented that will enhance worker and public safety, protection of the environment, and prevent damage of essential underground infrastructure when ground disturbances are undertaken in the vicinity of underground facilities.

CDM Oilfield Services Ltd. has a policy in place before undertaking a ground disturbance and all reasonable and practical precautions must be taken to determine whether or not an underground facility exists.

*Read the CDM Oilfield Services Ltd. Policies and Procedures Manual  
"Ground Disturbance Policy" Policy # CDM 9.0*
